about us

chi siamo

The International School of Comics is a digital and figurative art academy focused on providing students with a prominent art-focused curriculum in Comic Art, Illustration, Traditional and Digital Art. With prestigious instructors, students will gain the skills to become professionals and find their artistic souls.

The International School of Comics aims to provide students with high-class education and professional specialization guiding them towards success. With over 30 years of experience and a reliable recipe for victory, the International School of Comics has come to place a higher value on instructional methods than on the amount of teaching hours.

comics fumetto

The Comics Program has 18 seats available per class. From concept illustration to completed pages, this course teaches all the necessary techniques to thrive in the industry.

The Comic Art Program provides students with the professional skill sets necessary to be marketable on both, the national and international publishing market.

They will be confronted with different styles in the publishing sectors, in order to acquire the skill sets that will make them marketable, but most importantly they will develop a highly individual, distinctive style that demonstrates a mature and confident artist.

illustration illustrazione

The Illustration Program has 18 seats available per class. This program combines artistic techniques and graphic styles with the needs of the illustration industry.

The Illustration Program teaches students to form a professional artistic profile along with the skills to proficiently translate concepts and ideas into innovative styles of visual expressions.

With a vast and advanced art curriculum engaged on the knowledge of both traditional & contemporary techniques, the Illustration program allows students into the world of the most powerful & versatile medium for artistic communication.
